

[Autism Society Inland Empire](#)

Welcome to Autism Society Inland Empire

We are here to help!

1 in 68 children now have Autism according to the Center for Disease Control. If you or your loved one has recently been diagnosed with Autism, or you have been told that your child is exhibiting "autistic-like" behavior, it can be very challenging and stressful figuring out where to start and who to contact. We can help! [Click here](#) to send us a note or give us a call, check out our web pages, or look for local resources in our [Resource Guide](#) pages. Check out our educational and family events. We are here to support you.

Our organization has been serving the Inland Empire for over 30 years. Our mission is to improve the lives of all affected by autism. We work to create a world where individuals and families living with autism are able to maximize their quality of life, are treated with the highest level of dignity, and live in a society in which their talents and skills are appreciated and valued.

Awesome Adults

Murrieta Teen and Adult Group

Pomona Advocacy for Autism

Sensory Friendly Films at the Ontario Mills 30

Sensory Friendly Films at the Riverside Galleria

Sky High Night sponsored by Molina

Legos with Friends sponsored by DPR Construction

Rancho Cucamonga Adult Group

Information and Resources

We offer phone and email Information and Referral services, our online Resource Guide with over 700 resources, monthly support meetings for parents, teens and adults as well fun family events throughout the year like our Autism Day at the Waterpark, our Autism Walk, and Holiday parties!

Education and Outreach

ASIE presented to over 1200 individuals on a range of topics including IEP information, getting services from Regional Center, person-centered planning, and what it feels like to have autism by our own experts – adults who have autism. ASIE also

participated in a number of resource fairs and events all over the Inland Empire reaching over 5,000 community members.

Innovation and Grassroots Advocacy – Solving Today's Problems

ASIE works to educate public agencies and officials on the needs of our communities to help create more inclusive communities, better employment outcomes, and better outcomes for individuals with autism and their families.

Our local Autism Community currently has a 98% unemployment rate. We have over 400 adults with autism who are sitting at home, with no jobs, no friends.

We need to change the status quo! ASIE is working with local partners to solve these issues at the local and state level. From innovative pilot programs,

to bringing in national subject matter experts to help educate our community – ASIE is on the move.
